

SeeSnake® **MINI PRO**

World's first Digital Self-Level Inspection Reel

RIDGID®

NEW!

The RIDGID® SeeSnake® Mini Pro™ delivers the most stable in-pipe image with digital self-leveling and TruSense™ Technology. Our shortest 25 mm self-leveling camera head can navigate hard 90° bends while inspecting up to 61 m (200 ft.) with mid-stiff push cable. No moving parts in the camera head greatly enhances the service life expectancy of the camera head.

- ▶ **Digital Self Leveling:** Our most advanced self-leveling camera, with the smoothest self-leveling, always keeps the in-pipe image upright.
- ▶ **No Moving Parts:** Improved Longevity and Durability and Lower Service calls for the Camera Head.
- ▶ **High Dynamic Range (HDR):** Superior clarity and detail, allowing to quickly and easily identify problem areas.
- ▶ **TiltSense™ Inclinometer:** Measures the camera's degree of tilt and displays on SeeSnake Wi-Fi connected monitor.
- ▶ **Digital Zoom/Pan:** Zoom in and pan within the image to focus on points of interest.

 **TruSense™**
Enabled
